

Bock Water Heaters Now Offered by DB Sales

May 1, 2013 GARDEN GROVE, Calif. – DB Sales announced that it has added Bock Water Heaters to its lineup of high efficiency products for its clients. These water heaters have features in four key areas that are important to DB Sales clients, including:

- **Greater Energy Savings** – modulating pre-mix blue flame burner reduces fuel consumption by 15% to 25% compared to non-modulating condensing or conventional water heaters
- **Reliability and Durability** – heat exchanger-to-tank weld joints are overlapped and double-wall reinforced
- **Less Maintenance** – automated cathodic corrosion protection system with no sacrificial anode rods
- **Higher ROI** – up to 97% thermal efficiency and minimal maintenance

DB Sales President Steve Mertz lauds Bock Water Heaters for their quality and energy efficiency. “Bock Water Heaters are engineered to handle a wide range of heating loads while using minimal energy inputs. They are more robustly engineered than those in their class—the walls are thicker and it has a corrosion protection system. Bock products are designed to last a long time while minimizing expenses.”

Bock Water Heaters is an employee-owned company located in Madison, Wisconsin and has been in business since 1929. For more information [contact DB Sales or](#) visit www.bockwaterheaters.com.

About DB Sales

DB Sales is a leading representative firm for a full line of HVAC and plumbing products, serving Los Angeles, Orange, Riverside, and San Diego Counties since 1978. The company is distinguished by the high-efficiency equipment expertise of the sales personnel, with a consultative approach that delivers the best total solution to each client. They are focused on partnering with manufacturers that offer environmentally responsible and resource-efficient solutions. They are a licensed service contractor and factory certified for all the equipment that they sell. DB Sales also has a machine shop where they rebuild most Rotary Screw Compressors and Pumps to factory specifications. www.dbsales.net
